

QUALITY, ENVIRONMENTAL, SAFETY AND HEALTH POLICY

The overall objective of the policy of DERIVADOS DEL FLUOR is to provide a framework for implementing a continuous improvement system throughout the business in such a way that the maximum level of quality, safety and environmental protection is achieved, inside and outside its facilities.

DERIVADOS DEL FLUOR, aware of the possible environmental impact and risks of its activities, approaches its management systems in a preventive way that facilitates an early detection, to prevent a potential impact on people or the environment.

Therefore, DERIVADOS DEL FLUOR establishes this quality, environmental, safety and health policy that is reviewed and updated on an annual basis. This policy is communicated, understood, applied and updated throughout the organization and includes the following commitments to:

- Foster the importance of striving for excellence to provide our customers with products and services which meet and even exceed their expectations.
- Promote the prevention and minimization of its environmental impacts and permanently improve the control over the risks associated to accidents, in order to guarantee a high level of protection of human health, the environment and goods.
- Establish a risk prevention management system based on the identification of potential hazards and the implementation of preventive measures to avoid them.
- Compliance with all regulatory requirements, as well as the agreements or requirements signed on a voluntary basis.
- Assignment of all necessary human and technical resources, with actions and responsibilities aligned, and implementation of appropriate means to achieve a high performance and continuous improvement.
- Adopt and disseminate quality, environmental and safety objectives and goals that quantify the commitment to continuous improvement.
- Promote Product Stewardship actions for the commercialized products, intended to prevent potential risks for people and the environment.
- Promote the information and training of all its employees, to foster a corporate culture aimed to share all these commitments within the organization.

This policy is accessible to the public so that the different groups of interested parties can obtain complete, objective and founded information on the efforts, achievements and commitments that the company makes to improve its behaviour in these management areas.
